A simple canopy, with or without side walls, Nimbus™ is a fun and distinctive structure that is quick to build. It is perfect as a cool gazebo for entertaining friends, as a trade stand with a difference, or even as a stage cover.

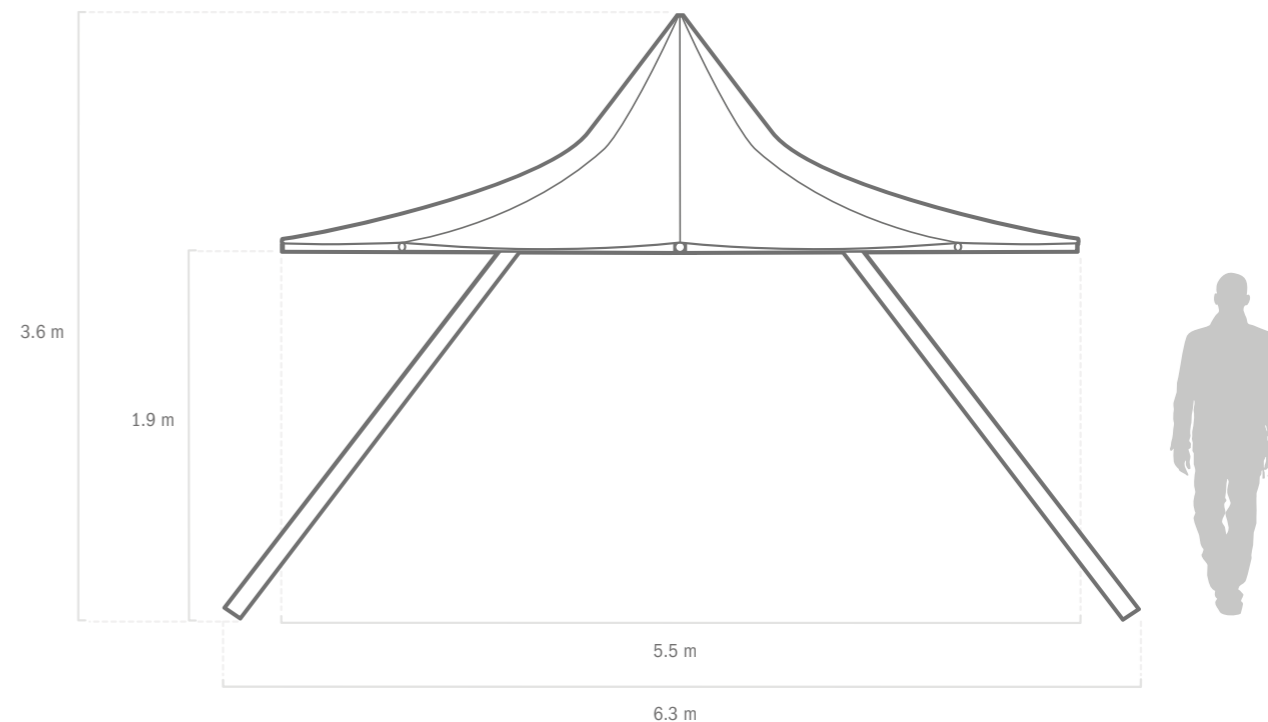

Much more than a shelter – it's a striking place for pleasure or business

In the garden, it's a different kind of gazebo for summer parties. When on sales tours, at markets or trade fairs, it's a stand that sticks out from the rest – and offers many creative display possibilities. At competitions, it's a sheltered spot for officials and stewards.

These are all typical applications for Nimbus – whether you leave it open all round or use the optional windbreak.

Whatever you use it for, Nimbus is a sheltered room that appeals to people and attracts attention.

Specifications

	Nimbus	
Capacity*	Standing	30
	Seated 8 per table	16
	Seated 6 per table	12
Dimensions when pitched**	Diameter (m)	5.5
	Height (m)	3.6
	Covered area (m²)	24

Swedish design and innovation since 1989

Tentipi was founded in Moskosel, a small village in Swedish Lapland, and is today the world-leading manufacturer of linkable event Nordic tipis. Our Nordic tipis are based on the traditional design principles of the Sami kåta but are made of modern materials and with modern construction methods. Our hope is that you, in a Nordic tipi from Tentipi, will feel the same closeness to the elements of the earth as the indigenous people do.
