Pro, Pro UC, Comfort of Base?

STRATUS 72

CIRRUS 72

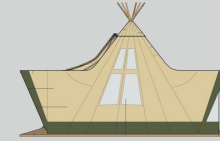

CIRRUS 40

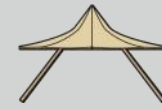

CIRRUS 28

CIRRUS 20

AURUM 33

NIMBUS 16

PRO

CANVAS PRO

Very high-quality fire-resistant tent fabric that has been developed and produced exclusively for Tentipi. The PRO tent canvas has a unique coating that makes it 100% waterproof and more resistant to UV radiation.

CANVAS PRO UC (Stratus)

Same as the PRO but without the coating. This cloth is less water repellent and less resistant to the action of UV. But it is stronger than the PRO cloth and easier to act because it is smoother.

POLES & HARDWARE

Robust poles of slow-growing spruces from northern Sweden. As a result, the wood is many times tougher than other wood. In combination with the PRO Hardware, this ensures a very stable construction that can be easily built up and down.

COMFORT

CANVAS

Very high-quality and strong tent fabric with the same characteristics as the PRO UC cloth without the fire-resistant properties.

POLES & HARDWARE

We do not offer Comfort Poles & Hardware. In combination with a Comfort Canvas you can choose between PRO or BASE set for Cirrus 20, 28 and 40. Only PRO poles & PRO hardware are available for Stratus 72, Cirrus 72, Aurum 33 and Nimbus 16.

BASE

CANVAS

Our new Base FR tent fabric is a certified fire-resistant standard cloth. The Base FR cloth is available for the Aurum 33. For the Cirrus Nordic Tipis and the Nimbus 16 at the moment only on request.

POLES & HARDWARE

The BASE poles also come from slow-growing spruces from northern Sweden. As a result, the wood is many times tougher than other wood. The BASE Hardware set is simpler than the PRO set. Base poles & hardware are available for the Cirrus 20, 28 and 40.
